A New Home for the

Four Corners Gem and Mineral Club

Serving Our Community Since 1947

Where Creativity, Craftsmanship and Science Meet

A Community Built on Making and Learning

For nearly 80 years the Four Corners Gem and Mineral Club has brought people together to learn, create, and share. Our program includes:

- Stone cutting and polishing
- Metalsmith and wax casting
- Field trips and classes
- Hands-on learning for school kids
- Annual Gem and Mineral Show
- Support for local entrepreneurs
- College scholarships

A field trip to hunt amethyst

Today the Club serves over 9,000 people a year, continuing a tradition that spans four generations of regional residents.

Shop users cut and polish stone

Building for the Future

Our current building has served us very well, but it was never designed for the scope and safety of the work we do today.

The existing facility

- is limited to 11 shop users at a time,
- is not fully accessible,
- cannot seat a full school group, and
- has scheduling conflicts for meetings, classes and community access.

After over a century of use, the shop is near the end of its useful life.

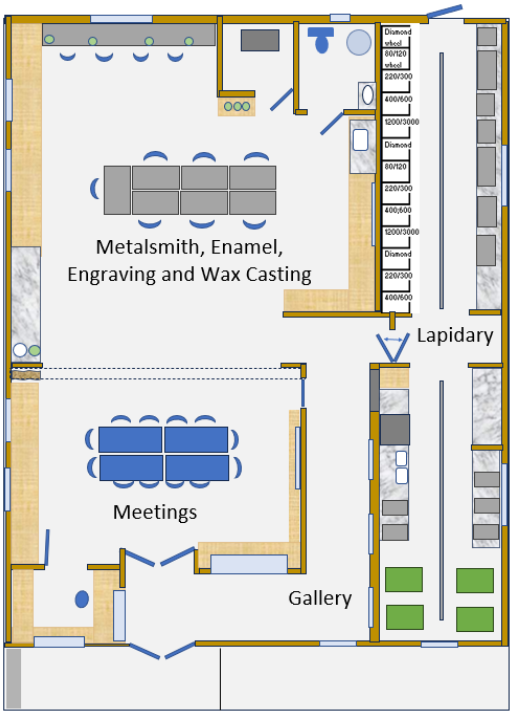
.

Our Vision

We are building a new facility designed for the way we actually work. It will:

- serve 29 shop users at once,
- provide full accessibility,
- allow simultaneous meeting, class and shop use, and
- separate work areas by unique safety, noise and ventilation needs.

Every work space will be enlarged and upgraded for optimum use, based on years of experience from people who use this shop daily.



A working concept. Your input is welcome!

This Project is in Motion

The Club has saved over $220,000 toward construction and design, no small feat for a small, volunteer-run organization! Before we break ground, it will contribute another $30,000 from predictable annual revenues. These funds can now leverage grant awards and inspire donations to complete the project.

An art entrepreneur melts silver scrap for his jewelry business

Project Goal: $800,000

Club Contribution	$ 250,000
Community Donations	100,000
Private and Governmental Grants	450,000

Call to Action

Help build the new Four Corners Gem and Mineral Club! Your donation and support will create an art and science learning environment and community workspace to serve generations to come.
